OUTRIGGER PADS

If a proper cost benefit analysis is completed, the lifetime pad that DICA produces is a no brainer.

CAVITY PADS
Be Worry Free.

ENGINEERED

Cavity pads are designed to safely contain a stabilizer foot while the thermoplastic material provides exceptional support.

BULLETPROOF

Drop them, drag them, submerge them in water, use them in freezing temps or searing heat. They're unstoppable.

STRONG

The completely solid pad design eliminates the need for metal fasteners, providing an unbreakable foot guard.

PROVEN SAFETY

Delivering the proven strength, reliability and safety thousands of operators around the world trust every day.
