

Fatigue & Injury Prevention

FEATURES

- High strength tubular steel
- 1,000 lbs. carry capacity
- Weighs only 60 lbs.
- Fits outrigger pad sizes from 36" to 60"

BENEFITS

- Safely use outrigger pads every pick
- Protect operators from lifting stress
- Eliminates crane deck damage
- 20+ year lifespan

ZeroLift
OUTRIGGER PAD RACK

The ZeroLift Outrigger Pad Rack is a revolutionary safety product for rough terrain cranes that eliminates the need for operators to lift and carry outrigger pads.

The rack works seamlessly with the operation of the crane. It literally is there when you need it, and stows away when you don't.

The easily installed ZeroLift Outrigger Pad Rack has minimal impact on crane ground clearance, enabling work to continue without added restrictions.

MODEL	L X W (FT)	WEIGHT (LBS)	CAPACITY (LBS)
RK54.1	5' X 4'	60	1,000
RK60.1	5' X 5'	70	1,000
