

AlturnaMATS Ground Protection Mats

Designed for equipment, AlturnaMATS have an aggressive tread pattern to maximize grip, prevent ruts and create stable pathways. Available in 3 different tread patterns: cleats on both sides for maximum traction and grip, smooth on one side to simplify storage use on hard services and smooth on both sides to protect flooring on inside jobs or as a landing for a flat blade to scoop up material.

Each mat is strong enough to support up to 120 tons and light enough to be moved by hand. AlturnaMATS are manufactured using environmentally friendly, recycled high-density polyethylene material that will never rot, splinter, warp or break.

KEY FEATURES

- ▶ Aggressive tread pattern maximizes grip.
- ▶ Available in 3 different tread options.
- ▶ Clear mats minimize damage to yards or lawns.
- ▶ Mat will never rot, splinter, warp or break.
- ▶ Easily link mats together to build temporary roads or working platforms.

MODEL	WXL (ft)	WEIGHT (lbs)	COLOR
AM48	4 x 8	86	Black/Clear
AM38	3 x 8	64.5	Black/Clear
AM36	3 x 6	51	Black/Clear
AM28	2 x 8	43	Black/Clear
AM26	2 x 6	32.25	Black/Clear
AM24	2 x 4	21.5	Black/Clear

VersaMATS Ground Protection Mats

Designed for pedestrians, VersaMATS prevent ruts and create stable pathways with a slip-resistant tread pattern. Available in 2 tread patterns, low profile tread on one side with cleats on the other side, or low profile tread and smooth on the other side.

Each mat is strong enough to support up to 120 tons and light enough to be moved by hand. VersaMATS are manufactured using environmentally friendly, recycled high-density polyethylene material that will never rot, splinter, warp or break.

KEY FEATURES

- ▶ Low-profile tread ideal for pedestrian applications.
- ▶ Available in 2 tread options.
- ▶ Clear mats minimize damage to yards or lawns.
- ▶ Mat will never rot, splinter, warp or break.
- ▶ Easily link mats together to build temporary roads or working platforms.
