

MaxiTrack

THE NEW PROVEN STANDARD IN PORTABLE MATTING SOLUTIONS

Say goodbye to half-inch mats and embrace the NEW proven standard in highly portable matting solutions....

Thicker, stronger modular system with built in connectors offers maximum support for any vehicle. MaxiTrack is the most durable and functional portable matting system for temporary access.

- Easily handled by 2 workers without lifting equipment, at 88lbs per mat.
- Rigid design effectively distributes weight, reducing ground pressure and surface damage.
- Microtraction matte surface, designed to provide superior grip and prevent slippage.
- Reversible SmartGrip™ and OctaGrip™ treads offer superior grip in all directions.
- Overlapping lipped connectors offer maximum support and mud suppression.
- Slotted joints enable heat expansion on large areas like parking lots.
- 12 month guarantee against breakages by vehicles.

Loading Guide

- Weight loading: 130t subject to ground conditions

This loading guide is for firm, dry ground. If the weather is likely to turn wet, please ask for advice.

It is the user's responsibility to assess the load-bearing capacity of the ground, and to only operate vehicles within the weight that the ground is capable of safely supporting. Please visit website for terms of guarantee.
