

GROUND PROTECTION & ACCESS MATS

Ground Protection & Access Mats

DICA's 3 UNIQUES

- 1** Application Expertise
We are experts who help you solve everyday challenges and maximize your performance.
- 2** World Class Products
Engineered, exclusive, patented, and unique.
- 3** Win-Win-Win
We are committed to your success and think long-term.

“

Your mats work great!! We used to buy plywood for this work, but no longer. Your mats have saved us lots of money and they work even better!

– Joe Downey, River Bay Corp.

SlatTrax Pallet System - Light Duty

– Extruded

Minimize Fatigue, Drag vs. Carry

- ▶ Total Length = 100' . 36", 42" & 48" widths.
- ▶ Deploy up to 100' of Roadway by hand in minutes.
- ▶ Protect lawns from excessive damage and reduce the required manpower.

SlatTrax Hydraulic Powered System - Light Duty

– Extruded

Deploy and Retrieve up to 100' in less than 2 minutes

- ▶ Single Spool or Dual Spool Systems.
- ▶ Deploy up to 100' of Roadway in minutes.
- ▶ Protect lawns from excessive damage and reduce the required manpower.

EnviroMat - Medium Duty

– Compression Molded

About DICA

Founded in 1988 by Dick and Carolyn Koberg, DICA is a family-owned company committed to engineering and manufacturing innovative solutions that enhance safety and stability in the lifting industry. Starting with a simple question—"Can you build a better outrigger pad?"—DICA has grown into a global leader, providing a wide range of products, including outrigger pads, crane pads, cribbing, ground protection, and site access mats.

With a legacy rooted in customer-first values and a commitment to excellence, DICA continues to deliver products that are trusted by professionals in over 50 countries. Today, led by the Koberg family, DICA carries forward Dick's and Carolyn's vision of problem-solving through engineered solutions, ensuring safe and efficient operations in the field.
